Are you satisfied with the current democratic process? Do you have any suggestions?
 30 ⓘ

What frustrates you most about current democratic processes?

No, I'm not satisfied, and I believe that it often fails to represent the will of the people accurately.

No. I am tired of fake promises and lies

Not satisfied and I would like an alternative system

not at all its horrible

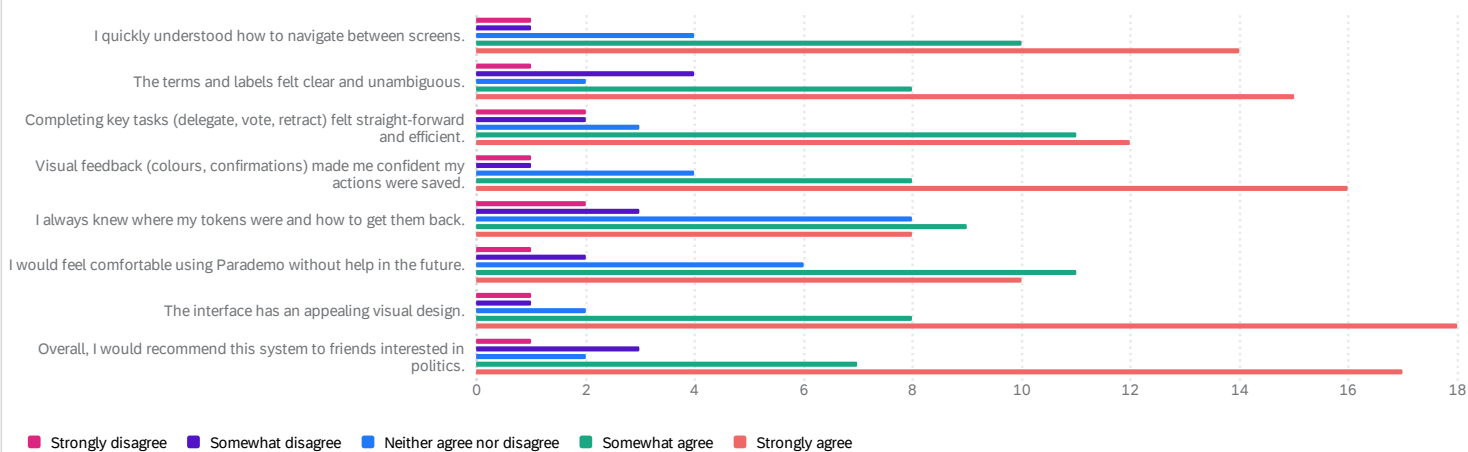

not satisfied

No very bad

Not at all. Our democratic processes could be improved in various ways.

I am not interested in politics

What did you like most about the Parademo prototype? 30 ⓘ

What did you like most about the Parademo prototype?

The ability to delegate my voting power to a trusted expert only for the policy categories that I feel like I lack knowledge, and at the same time vote myself for the policy categories that I believe that I have sufficient expertise.

very good

I can see the entire delegation path and know how my tokens ended up in each person

The fact that I can vote for the stuff that I know about, and delegate my voting power to someone else for the stuff that I don't know

It's an alternative democratic system that looks promising. Correct implimentation is crusial in order to ensure fairness and transparency

it is a new and very innovative idea, which if actually impimented will be very transformative for democratic participation

The overall concept of voting delegation

The overall idea of liquid democracy and delegated voting to trusted experts

The overall idea of liquid democracy

Its structured and modern user interface

What did you like most about the Parademo prototype?

I like that I can only vote for the categories that I know about

What confused or frustrated you? 30 ⓘ
